INFINITY BIBLE CODE

This Excel file uses the Infinity Bible Code - Hebrew Alphabet Method to calculate numbers for use in researching a word, name, number or birth year in the Bible.

Go to the "[IBC-Hebrew](#)" tab and enter a word(s) or name(s) in the blocks. The number of the word or name will be calculated. In the block at the lower right, enter a number or birth year. You will use Hebrew letters from the "KEY" table to copy and paste the Hebrew letter into the input blocks.

Go to the "[Bible Chapter Numbers with Year](#)" tab and locate the Bible chapters that correspond to the word(s) or first/middle/last and whole name's number totals. Also locate the Bible chapters that correspond to a number or birth year.

Go back to the "[IBC-Hebrew](#)" tab and next to Notes 1 - 5 enter the Bible chapters corresponding to the word(s) or name(s), and the birth year or number and save the file for record.

Research those chapters in the Bible to see what it says about a name, or even about your name. You can also look up any word of interest to see what the Bible says about it.

Note: the whole chapter will not necessarily be about you. More often, there are certain details about you or your life that will be revealed in those chapters.

Possible details are: the meaning of your name, subjects you have studied, characteristics of yourself, names of children, etc.

Be in prayer during your research and ask the Lord to reveal what you need to know about the Bible chapters you are looking up.

For example: for the word "stretch" or "stretch forth", in Young's concordance there is the Hebrew word "NATAH", spelled with the Hebrew letters nun, teth, he.

Go to the "[IBC-Hebrew](#)" tab and in table "KEY", you will find the assigned letters for "nun, teth, he" are "נ ט ה".

Input these 3 characters "נ ט ה", one per box, and their total equals 64.

Go to the "[Bible Chapter Numbers with Year](#)" tab and locate the Bible chapters that correspond to 64.

In this case it is Exodus 14, 2 Kings 11, Psalm 106 / Proverbs 6, Ezekiel 42, Luke 20.

When you go to Exodus 14 and search for "stretch", "stretch forth", "stretch out", you will see the actual words in verses 16, 21, 26, and 27 !

Research the other chapters and see what the Lord would reveal to you.

Conclusion: when you look up the Bible chapter corresponding to the number of a word, you will see the word and/or the context of the word !

Share this file with others who are receptive.

Grand Total is the total numerical sum of the value of each of the words.

The Bible chapter number from the Old & New Testament will display to the right of the number totals.

The Bible has 1189 chapters. The Old Testament has 929 chapters. The New Testament has 260 chapters.

Grand Total = 64 64 64
see Note 4

Max. Total = 2340 If Grand Total exceeds 2340, then the name has too many letters for the calculation of its total number.

Note 1: Enter here the 4 or 5 Bible chapters corresponding with the number total:
(Example: NATAH = נ ט א ה = 64 = Exod.14, 2 Kings 11, Ps.106 / Prov.6, Ezek.42, Luke 20)
